

## SHRUB COCKTAILS

Devised in the late 18th Century, *Shrub* was a technique used to preserve summer berries and fruits for consumption all year round.

By adding sugar and vinegar, the fruits were reduced down to a dense liquid known as *Shrub*. The process not only ensured the fruits' preservation, but compounded the sweet and sour flavours, producing phenomenal taste.

Now, in the 21st Century, Lumia have taken *Shrub* and mixed it with modern spirits to produce cocktails which are, well, a little bit glamorous.

Enjoy.
